A) OBJECTIVE

To apply advanced expertise in AI, ML, and app development to build scalable, real-world applications. Seeking to leverage my skills by contributing to innovative teams developing GPT-based tools, intelligent agents, and next-generation AI systems.

B) EDUCATION

B.Tech Computer Science, Sahrdaya College of Engineering and Technology CGPA: 8.02	2023-Present
Senior Secondary, Lemer Public School 82.5%	2020-2022

C) PROJECTS

1. ACADEMIC PROJECT

- A) **Ecco-Vision – Smart Assistive Device for the Visually Impaired** *July 2025 - Present*
- Built a portable assistive device using ESP32-CAM, YOLOv8, and ultrasonic sensors to provide real-time object detection and voice feedback for the visually impaired.
 - Enabled hands-free navigation through Bluetooth audio output, enhancing safety and independence.

2. INTERNSHIP PROJECT

- A) **AI-Powered Civil Scoring Agent for Safe Digital Interactions:** *Role : AI Developer || Feb 2025 – Present*
- Designed and developed an **AI Agent** that evaluates users' digital behavior across social media and interactions to generate a **real-time "Civil Score" (0–100)**, indicating digital safety and civility.
- B) **Web Scraping AI Agent Using GPT API:** *Role: AI Developer || Jan 2025– Feb 2025*
- Built an autonomous AI agent that performs web scraping and intelligent content summarization using the GPT API.

3. **OTHER PROJECTS:** 1) Bank Management System 2) Multiuser Chat application 3) Advanced file organiser bot
20+ Advanced Python Projects
GitHub Link: <https://github.com/Adnan-Deuser>

D) EXPERIENCE

1. **AI Agent Developer Intern at GoldenBird Education** || *June 2025 - Present*
URL: edgoldenbird.com
- Contributed to an ongoing stream of AI agent development projects, applying cutting-edge tools like OpenAI GPT APIs, Python, LangChain, and web technologies to real-world use cases.

E) SKILLS

- Technical:** Python, C, C++, Java, R Natural Language Processing (NLP), AI Agent Development, Web Scraping & Data Extraction, OpenAI GPT APIs, Ethical & Responsible AI, Backend Development, LangChain, Fog & Edge Computing, Git & Collaboration Tools, SQL
- Soft Skills:** Public Speaking, Team Collaboration: worked within cross-functional teams to achieve common goals. Critical Thinking, Time Management.

F) CERTIFICATIONS AND ACHIEVMENTS

- CyberSprint Cybersecurity College Certificate
- Intel, AI for Entrepreneurship Certificate of Completion
- AI/ML Webinar Certificate of Participation
